

SUGAM ACHARYA

DATA SCIENCE ENTHUSIAST | PYTHON DEVELOPER

PROFESSIONAL SUMMARY

Curious-minded developer with a passion for clean, functional backend development using Python, Django, and REST APIs. I enjoy building simple, effective solutions to real-world problems and am currently diving deep into data engineering, machine learning, and AI. I'm especially interested in how data flows through systems — from collection and transformation to meaningful insight. I'm eager to grow within a collaborative team that values clarity, learning, and scalable data-driven systems.

CONTACT

Address: Balkumari, Lalitpur
Phone: +977-9824065440

SKILLS

Technical Skills

HTML, CSS, JavaScript, python, Django, REST framework, Jupyter Notebook, PostgreSQL, MYSQL, Git & GitHub

Soft Skills

Problem Solving, Communication, Collaboration, Continuous Learning

PROJECTS

Online Job Portal Platform | HTML, CSS, JS + Django

Code: github.com/Sugaam0/JobMania-JobPortal

- Built a full-stack job portal enabling job seekers to create profiles, search for jobs, apply to postings, and track applications.
- Employers can post job listings and manage applications through an admin interface.
- Ensured a scalable architecture with secure data handling, optimized performance, and a clean user experience.

HeartCare - Heart Attack Prediction | Django + ML

Code: github.com/Sugaam0/HeartCare-Heart-Attack-Prediction

- Developed a machine learning-based heart attack prediction system that assesses risk based on key medical indicators such as blood pressure, cholesterol, and heart rate.
- Performed data preprocessing, feature selection, and model training in Jupyter Notebook using classification algorithms to ensure accurate and reliable predictions.
- Integrated the trained model into a Django web application, allowing users to input health data and receive real-time heart attack risk assessments through an intuitive web interface.

Responsive Portfolio Website | Django, JS, CSS, Render

Live: portfolio-icsx.onrender.com

EDUCATION

Bachelor of Software Engineering

Nepal College of Information Technology, Balkumari, Lalitpur | 2022 – 2026 (Expected)

Higher Secondary Education (+2), Computer Engineering

Shree Saraswati Secondary School, Damak, Jhapa | 2019 – 2021

CERTIFICATION

Data Science Course - Mastering the Fundamentals

Scaler | 2025
